Mr. Speaker Sir, the right to water and sanitation is provided under Article 43 of the Constitution of Kenya. Every person in Kenya has the right to clean and safe water in Adequate quantities and the right to reasonable standards of sanitation. Further aware That water function was devolved and it is the sole responsibility of the county Government to provide and supply enough water to the residents of the county. In line with the above, I seek a statement from the chair for Water and irrigation.

Specifically, the Chair to inquire into and report on the following issues;

1. The status of Maramtu project at kunaso area which stalled for a long time?

2. Can the department clearly state the timeline they are going to finish the 2km piping of the aforementioned project?
