1. (STATEMENT SOUGHT FROM CHAIR COMMITTEE ON FINANCE, BUDGET AND APPROPRIATION)

Hon Speaker, pursuant to standing order 47, (2)(c) I rise to seek a statement from the chair committee on Finance, Budget and appropriation regarding the issue of bursary allocation and disbursement across the county.

Hon. Speaker, Education is a fundamental pillar of development, and the bursary funds are a critical component in supporting the education of needy students. However, concerns have been raised regarding the disbursement of these funds, particularly the transparency and equity in allocation across all wards.

Hon. Speaker, In the statement the Chairperson shall inquire into and report on:

1. Is the department aware of instances where bursary cheques issued to learning institutions have bounced? If so, what measures has the department taken to resolve this issue
2. Can the department provide a breakdown of the total amount of bursary cheques issued across all wards? How much was allocated to each ward, including the amount allocated to specially elected members?
3. Whether the department plans to clear the outstanding funds of **KSH600,000** per ward
4. Can the department provide a detailed report on the last bursary allocation, including:
 - The total number of student beneficiaries per ward.
 - The total amount utilized for bursary distribution across the entire County.
 - A breakdown of allocations to different education levels

2. (STAEMENT SOUGHT FROM CHAIR COMMITTEE ON HEALTH)

Hon. Speaker, Pursuant to Standing Order 47(2)(c), I rise to seek a statement from the Chair Committee on Health regarding the channeling of funds to primary health centers under the Universal Health Care program, facilitated by the Danish International Development Agency (DANIDA), in Garissa County.

Hon. Speaker, it is essential for the County government to manage these funds through the integrated financial management system (IFMIS) and ensure they are channeled to the special purpose accounts of primary health care facilities. These funds are crucial for covering operational and maintenance costs, particularly following the implementation of the 10/20 policy, which prohibits the collection and use of user fees at the source for running the facilities, including managing emergencies.

Hon. Speaker, on a quarterly basis, a fixed amount of money should be directly transferred to the respective bank accounts of primary health care facilities, including health centers and dispensaries. However, it has come to my attention that numerous facilities, including the Hamey dispensary, a high-volume dispensary, have not received their due funds since January 2020. This lack of funding severely hampers their ability to provide essential health services.

Hon Speaker, In the statement the Chairperson shall inquire into and report on:

1. The total amount of funds allocated to primary healthcare facilities in the first quarter that ended October 31st ,2020.
2. A detailed list of health care centers and dispensaries that received funds under the Universal Health Care program, including the specific amounts channeled to each during the period.
3. A detailed list of health care centers and dispensaries that did not receive funds under the Universal health care program.
4. The reasons for the non-receipt of funds by certain primary care facilities, particularly focusing on the Hamey dispensary's lack of funding since January 2020.
